

# RVRF REFRIGERATION

## EXCITING UPGRADES AND IMPROVEMENTS

- 1 IMPROVED COOLING SYSTEM**  
Air tower redesign and new thermostat location provide better airflow for improved temperature control
- 2 NEW 3M FILTER AND LOCATION**  
New filter reduces the hazardous contaminants found in water with a better fit and finish of the filter housing
- 3 IMPROVED AUTOCLOSING FRESH FOOD DOORS**  
The self-closing mechanism improves the door sealing capability with less noise. Door alignment adjustment is also improved.
- 4 NEW GRAY GASKET**  
Improved color for easier cleaning and more consistent look
- 5 NEW PLASTIC LOWER BASKET**  
Improved temperature performance in freezer with less air escaping when freezer is opened
- 6 REDESIGNED FREEZER SLIDES**  
Improved anti-racking mechanism with 60% larger teeth to reduce wobble and noise and provide a softer close
- 7 TWO LED LIGHTS**  
Additional lights for better visibility
- 8 IMPROVED UPPER FREEZER BASKET CLIPS**  
Prevents basket from being dislodged
