

TURBOCHEF SPEEDCOOK OVEN

PROVEN COMMERCIAL PERFORMANCE FOR YOUR HOME

MODES

High-performance speed cook modes for versatile performance include Bake, Roast, Broil, Air-Crisp, Toast, and Dehydrate.

METHODS

The combination of impingement air, radiant heat and microwave is used for Speed Cook Modes.

The Viking TurboChef Oven will not work as a stand-alone microwave.

SPEED

With patented AirSpeed Technology™ the Viking TurboChef oven cooks food up to fifteen times faster than conventional ovens.
